

Supine To Prone Rolling (Upper Body)

Purpose:

This developmental exercise improves muscle activation and contraction sequences of the torso.

Benefit:

This exercise improves rotational stability of your golf swing.

Instructions:

Lie on your back with your legs extended and your shoulders fully extended over your head on the ground. Now try to roll your body to the face down position starting with your right arm only. Try to not use your lower body. Repeat on the other side.

Quantity:

Do _____ reps _____ sets on _____ side(s).
