

## Toe Touch Heels Up

### Purpose:

This exercise helps increase your ability to hinge from your hips.

### Benefit:

Proper hip hinge improves your ability to get into a correct balanced address posture.

### Instructions:

Start by elevating your heels up on a foam roller or small phone book. Raise your arms straight up over your head and place a rolled up towel or foam roller between your knees. Now, slowly bend from your hips and try to touch your fingers to the ground. If you squeeze your knees together during the movement it will help assist the stretch.

### Quantity:

Do \_\_\_\_\_ reps \_\_\_\_\_ sets on \_\_\_\_\_ side(s).
